

Appendix Audit Or Inventory Table

Track denominators, inclusion rules, checklist items, or appendix completeness.

Table 1: Appendix audit inventory. Each item has a scope, source, and fill status.

Item	Scope	Status	Reader-facing action
A.1	Denominator audit	Complete	Report excluded cases and the scorable denominator.
A.2	Prompt template	Complete	Include normalized template text without local file names.
A.3	Additional examples	Partial	Move full examples to appendix and keep body prose concise.
A.4	Reproducibility notes	Complete	State hardware, budget, and selection policy together.

Width policy: Appendix-grade table with source scope, status, and action; no performance highlighting.
